

Very sad news !

Viktor was a very long time friend and almost a member of our family. He was a pioneer of basin management in Russian-speaking countries and the initiator of the Russian versions of the INBO website and our annual newsletter, as well as numerous conferences.

He was among the most loyal of our many events around the world and we had a great, friendly and professional time together.

He seemed immortal and his departure is an immense loss for Christiane and me personally, for all INBO members and for the Russian and international water community.

We will not forget it.

Please send my condolences to his family and all our colleagues in the Scientific Information Center of Interstate Commission for Water Coordination in Central Asia.

Jean-François Donzier and Christiane Runel

INBO Honorary General Secretary

International Network of Basin Organizations
