

Dear ICID Friends

It is with great sadness, I received the unexpected sad news of the passing of VPH Dr. Viktor A. Dukhovniy.

I had the pleasure to know him and work with him within the ICID for over the past 26 years. His great contribution to ICID and the world at large earned him the ICID's first World Irrigation and Drainage (WID) Prize in 2013. He will leave behind a wealth of knowledge to every professional in the field of irrigation and drainage.

ICID sadly lost a great friend and an outstanding member greatly loved by everyone. My sincere condolence to his family. Viktor will always be in our hearts and minds. Our thoughts and prayers are with his family during this difficult time.

Kind Regards

Ragab Ragab

ICID - President

Dear Shavkat,
