

Dear Dinara,

This is very sad news. Please accept our condolences on the death of Viktor, and let his family know that we are sorry for their loss.

Viktor's personality and work will be remembered, since his input to the cause of water resources management in Central Asia has been a major one, and his experiences have been disseminated and valued in many other regions. Viktor's support to INBO activities, in particular, has been constant and vital in your region, and INBO network will faithfully keep the memory of his outstanding contributions for the past decades.

Warm regards

Eric Tardieu
